

Leadership Development for Directors and Physician Leaders

LEADERSHIP

CONSULTATIVE

PARTNERSHIP

TRANSFORMATIVE

You've probably watched others ride the white waters down a narrow canyon creek; at times it's a white-knuckle ride but it's also a life-changing experience. Whether you stand at the bedside, create the policies, direct your program or make tough decisions you are likely in the middle of shooting the healthcare rapids and you need to be equipped to meet the needs at hand. Navigating the white water takes solid leadership, strategy, skill and many hands to keep the boat from hitting the rocks and guide it to safety. This program brings business strategy and individual perspectives together to provide learners with the opportunity to **build new skills, strengthen and develop strategic partnerships and create collaborative solutions** and options. White water rafting requires the right equipment. This program is designed to deliver relevant, applicable and timely materials, tools and content that strikes a balance between strategic and operational needs, and is aligned with the **LEADS in a Caring Environment Leadership framework**. Stay afloat, ride the rapids, meet the challenge.

How you will benefit

This holistic leadership program is founded in three core principles:

- 1) **Relevant Curriculum**
- 2) **Experienced Faculty**
- 3) **Collaborative Learning**

Who Should Attend

Physicians in leadership roles or aspiring to leadership positions: academic leaders, chiefs-of-staff, presidents and members of medical advisory committees, department and division heads, program leaders and other medical leaders.
